WARNING:

READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you or anyone in your family has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game - dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement or convulsions - IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION DISC

- This compact disc is intended for use only with the PlayStation game console.
 - Do not bend it, crush it or submerge it in liquids.
 - Do not leave it in direct sunlight or near a radiator or other source of heat.
 - Be sure to take an occasional rest break during extended play.
 - Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use.
- Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

Note: You can reconfigure the fighting controls by using the Option mode - Controller Config settings. See page 10.

Combine the **D-Pad** + **×**, **□** and **○** button for Special Attacks. See the pages on character moves at the end of this manual.

GUARD CONTROLS

Guard Escape

When in a light block, if your opponent attacks and connects, press the **D-Pad** toward the opponent when the "blue spark" appears and you will sidestep away from the attack. This maneuver is vulnerable to the Guard Break.

Light Guard

Release the **D-Pad** to the neutral position to perform the Light Guard, which can transition into the Guard Escape for an offensive follow-up.

Heavy Guard

Press and hold the **D-Pad** away from your opponent to perform the Heavy Guard. This technique is invulnerable to Guard Break moves. Pressing and holding the **R1** button also performs this maneuver. Remember that you cannot perform the Guard Escape while in the Heavy Guard.

Guard Break

Each character has certain moves which, when performed, can break through the opponent's Light Guard. The number of Guard Break moves increases when your character is in Beast mode. When the moves are performed correctly, part of your character's body shines. Experiment in Practice mode to discover each character's Guard Break moves.

THE FEAR CONTINUES

The Tylon Corporation is dead! Tylon was the infamous bio-corporation that used the human body as the basis for its "Zoanthropes" - genetically altered super beast-beings. The industrial giant then used its creations as advance troops in global military invasions. The Zoanthropes' mutiny in the original BLOODY ROAR destroyed the powerful multi-national organization. But the Zoanthropes' inhuman dealings with their victims caused worldwide revolt. The Zoanthropes rightfully earned their name as "enemies of the human race."

Hostilities between humans and Zoanthropes exploded. Reports of Zoanthrope hunts and their toll in human life flooded the news. Reacting to the bloodshed, a group emerged that supported the Zoanthropes. They called themselves the "Zoanthrope Liberation Front" and declared war on the hunters. But the Front's terrorist tactics raised suspicion. Rumors began leaking out that the Front secretly kidnapped Zoanthropes and held them hostage.

Five years have passed since the collapse of the Tylon Corporation, and the world is in uproar. The three warring factions are the Human Race, the ZLF, and a loose alliance of renegade Zoanthropes. Distrust among these three camps has reached critical mass. The future of life as we know it is at stake.

One army will crush the other two - possibly forever! Can the world survive this cataclysmic clash? Join the deadly warriors of the new millenium - and rage against the super-beasts who threaten to destroy the world!

SELECTING A GAME MODE

The Title screen appears when you start the game. Press **X**, **□** or **○** to see the first game mode. Press the **D-Pad** **↑/↓** to scroll through the modes, and press **X**, **□** or **○** to select one.

ARCADE (1 Player)

This mode faithfully duplicates the arcade version of BLOODY ROAR II. Select your character on the Character Selection screen by using the **D-Pad** and pressing **X**, **□** or **○** to confirm. Then the computer automatically selects your opponent and the fight begins. If you win, the next opponent will be automatically selected and the next fight will begin. If you lose, you'll have the chance to continue playing in this mode.

CONTINUING PLAY

There is no limit to the number of times you can continue. Press Start on the Continue screen before the countdown reaches zero. Use the Character Selection screen to choose your fighter and resume combat. To end the mode, allow the countdown to reach zero.

CHALLENGER PARTICIPATION

During Arcade battle, a second player can join in by pressing Start on the second controller. The new player then selects a character and the fight begins.

VS (2 Players)

Two players each select a character and proceed to battle stations. Press Ll/Rl before choosing your characters to select the stage.

STORY (1 Player)

Discover the profound world of BLOODY ROAR II! Develop your character's story as you win and advance. Learn more about each fighter's background and the evolution of his/her bestial counterpart. The story begins when you select your character. Your opponents appear one by one and more of the story is revealed as you win and advance. If you lose, you can continue the story by selecting YES on the Continue screen.

SURVIVAL (1 Player)

Considerable experience required! Compete to see how many opponents you can defeat with a single life. Since your Life Energy does not completely recover between rounds (as it does in other modes), it's much more difficult to win and advance.

Note: Defeat 15 characters in Survival mode to access the Any Cancel combination attack feature.

WATCH

Take a ringside seat in a match between two computer-controlled characters. Select both characters (or the same character twice) and grab the popcorn as you watch a pulverizing bout.

CUSTOM (1 or 2 Players)

Battle your way through the challengers. As you obtain each Custom fighting mode by meeting special conditions, your character gains new strengths and more combat upgrades become available.

Game Start: After setting your Custom options, select Game Start, and then select your fighting mode.

- VS HUMAN - Two players compete.
- VS COMPUTER - One player vs. the computer.
- VS COMPUTER ALL MEMBERS - One player vs. all characters controlled by the computer.
- PRACTICE - hone your skills and beastly powers against a computer opponent.

Wall Display: Toggle ON/OFF to display or hide the background.

After Image Mode: Switch ON/OFF to display or hide the after-image of the characters during fights.

Default: Restore all default Custom settings.

Quit: Return to the Main Menu.

SETTING OPTIONS

Select **OPTIONS** from the Main Menu to display the Options Menu. Press the **D-Pad** \uparrow/\downarrow to select an option; press the **D-Pad** \rightarrow/\leftarrow to adjust the setting. Press \times , \square or \bigcirc to confirm, or press \triangle to cancel and exit back to the Main Menu.

Note: The Controller Config and Quit options are also available from the Pause menu by pausing during gameplay.

Memory Card: Use the Memory Card to save, load and autoload game data.

- Autosave - Turn automatic save. ON/OFF.
- Load Memory Card Slot 1 - Load data from the Memory Card.
- Save Memory Card Slot 1 - Save data to the Memory Card.

Controller Config: Reconfigure the fighting controls to suit the way you play. At the menu, hold down the button you want to reconfigure, and then press the **D-Pad** \rightarrow/\leftarrow to scroll through the available functions. When finished, press Start to exit back to the Options menu.

Difficulty: Select the difficulty of defeating the computer player, from 1 (easiest) to 8 (hardest).

Attack Level: Set your fighter's attacking power from 1 to 8.

Time Limit: Set the length of time for each round: 20, 40, 60 or 90 seconds, or infinity.

Match Point: Set the number of rounds required to win a match, from 1 to 4.

Character Select: Adjust character selection to Normal or Quick mode.

Display Type: Choose a display mode that fits the TV you are using.

Sound Options: Toggle between stereo/mono sound and adjust the volume. You can also sample background music and sound effects.

Movies and Pictures: View different animations and illustrations as you win bouts under varying conditions.

Play Data: View the ranking of each play mode.

Vibration: Dual Shock™ analog controller only. Toggle the vibration feature ON/OFF.

Default: Restore all default Option Settings.

Quit: Return to the Main Menu. (Ends the current fight when selected from the Pause menu.)

THE FIGHT SCREEN

You can move your fighter during the short time between "Get Ready" and "Fight," so try to get into your best attack position in that brief moment before the action starts.

Player 1/Player 2: Player 1 controls the character who starts on the left side of the screen, and Player 2 controls the character on the right.

Time: Time limit per round.

Life Energy Gauge: Displays the remaining strength of the character. Both characters start each round with a full Life Energy Gauge, except in Survival mode. Life Energy decreases as a player takes damage.

Round: Shows the number of rounds needed to win the match. Red circles are rounds won so far.

Beast Gauge: When the "B" mark appears, you can morph your character into his/her Beast counterpart and use your Beast moves by pressing the **O** button (default). When blue, the gauge is charging; when yellow, you are in Beast mode. The yellow gauge decreases as you take damage. See the "Beast Mode" section on page 14 for more.

GAME RULES

- When a character takes damage, his/her Life Energy Gauge decreases.
- The first character whose Life Energy Gauge runs out loses, and the other character wins the round.
- The first fighter to win the set number of rounds wins the match.
- If you're playing with a time limit and time expires before either opponent wins, the fighter with more Life Energy remaining wins the round.
- A tie occurs when both fighters' Life Energy runs out at the same time (a double KO), or both fighters have the same amount of Life Energy when time runs out. In case of a tie, the characters will fight one more round to determine the winner.

Note: You can adjust the time and number of rounds per match in Option mode. See page 10.

Hints

- Don't give up. Fight to the end!
- It's possible to snatch victory from the claws of defeat with a devastating Rage Move!

BEAST MODE

FIGHTING STRATEGY

In BLOODY ROAR II, your fighting strategy is to concentrate on morphing into a beast whenever and as often as possible, and using your Rage Move to defeat your opponent. You can only morph when the Beast Gauge shows a "B." At the start of a round, your Beast Gauge has a half charge and you can morph at any time by pressing the **O** button (default).

Note: Check each character's profile beginning on page 19 for individual Rage Moves.

THE BEAST GAUGE

The Beast Gauge takes on different appearances to indicate its state:

APPEARANCE	STATE
Blue	Charging
'B' Mark	Ready to morph
Yellow (full)	Beast mode. The bar decreases as your Beast character takes damage. It empties when you unleash a Rage Move.
Yellow (empty)	When the Beast Gauge empties, Beast mode ends if you are knocked out or hit with the opponent's Rage Move.

MORPHING

Your fighter can morph into Beast form when the "B" mark appears in the Beast Gauge. You gain power and the ability to use your Beast's Rage Move.

1. Press **O** to morph into a Beast. Your Beast Gauge turns yellow.
2. Your Life Energy Gauge begins gradually recovering some energy, as long as your Beast is attacking or standing off. (It will not recover energy while your Beast is taking damage or guarding. When you revert to human form, the Life Energy Gauge no longer recovers.)
3. You're now empowered with Rage Move. Press a unique combination of the **D-Pad** + **O** to use your Rage Move, depending on your character.

Remember: Your Rage Move uses up all your Beast power.

USING FIGHTING COMMANDS

The moves in this section can be used by all characters. These commands are for characters facing right. Reverse the left/right **D-Pad** direction when your character is facing left.

MOVEMENT

- ↓ + □ + R1 Lower throw attacks
- Beast attacks

Rage Move

Rage Move is a one-hit ultimate destructive attack performed during Beast mode. It is the clinching killer attack and it uses up all your Beast power. Since that leaves you extremely vulnerable, be careful when you use it, and be ready for the consequences if you fail.

DEFENDING

Guard by pressing the **D-Pad** ← or ↙ or releasing it to the neutral position. You can also guard an attack once while jumping in the air.

GUARD CHART

	Upper Guard	Lower Guard	Air Guard	Cover
Upper-Level Attack	Defend	Attack doesn't connect	Defend (once only)	Attack doesn't connect
Mid-Level Attack	Defend	Can't defend	Defend (once only)	Attack doesn't connect
Low-Level Attack	Can't defend	Defend	Defend (once only)	Can't defend

Light Guard - D-Pad neutral

A reliable guard that you can easily transition into a counterattack. It can be crushed with the Guard Break move.

Note: You cannot Light Guard on moves when part of your opponent's body shines before he/she attacks.

Heavy Guard - From neutral, quickly tap and hold D-Pad away from opponent

A stronger guard that can withstand the Guard Break but takes more time to transition into a counterattack.

Guard Attack - ↓ ↙ ← + □ or ×

This counterattack is wrapped in lightning that shifts from upper or middle guard depending on the character.

Guard Escape - D-Pad toward opponent when 'blue spark' appears

Slip into Guard Escape to avoid an attack, and come back with a combination!

Defense - □ + ×

Avoid damage by going on the defensive

Cover - ↓ ↓ quickly

Use Cover to avoid upper and mid-level attacks.

LIMITED WARRANTY

Sony Computer Entertainment America (SCEA) warrants to the original purchaser of this SCEA product that this software is free from defects in material and workmanship for a period of ninety (90) days from the original date of purchase. SCEA agrees for a period of ninety (90) days to either repair or replace, at its option, the SCEA product. You must call 1-800-345-SONY to receive instructions to obtain repair/replacement services.

This warranty shall not be applicable and shall be void if the defect in the SCEA product has arisen through abuse, unreasonable use, mistreatment or neglect. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE SCEA. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL SCEA BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE SCEA SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of consequential damages, so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
